Registration opens February 2017!

Pediatric Polysomnography Course

Thursday, November 2, 2017 | 12:55-6:00 pm

Target Audience

Intermediate to advanced sleep medicine specialists, fellows, psychologists, physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists. Instructional level: intermediate

Program Description

This course is targeted towards experienced pediatric sleep practitioners seeking a more advanced but still practical approach to polysomnography in infants, children and adolescents. Highlights include improving practices and lab environment to accommodate children with special needs (including autism), updates on PAP masks for pediatric populations including mask fitting and desensitization, and updates in positive airway pressure (PAP) titration. Further skills in polysomnography and multiple sleep latency testing and interpretation will be promoted by experts in the field.

Best Practices Course

Friday, November 3, 2017 | 8:30 am - 5:00 pm

Target Audience

Researchers, clinicians, and trainees (physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists). Instructional level: intermediate.

Program Description

This course will offer best practice, up-to-date, evidence based information in the treatment of pediatric sleep disorders across a range of sleep disorders, including sleep disordered breathing, narcolepsy, restless legs syndrome/periodic limb movement disorder, circadian rhythm disorders, insomnia, and parasomnias. In addition, participants will learn best practices approaches to engaging patients and families to increase adherence to sleep interventions, including PAP therapy.

Welcome Reception | 6:00-8:00 pm

Please join us for refreshments and light hor d'oeuvres

2017 Pediatric Sleep Medicine Meeting

Saturday, November 4, 2017 | 7:45 am - 5:00 pm

Sunday, November 5, 2017 | 8:30 am - 12:00 pm

Target Audience

Researchers, clinicians, and trainees (physicians, psychologists, nurses, nurse practitioners, polysomnography technicians and technologists, respiratory therapists). Instructional level: intermediate

Program Description

Attendance at Pediatric Sleep Medicine 2017 will give participants a broad understanding of pediatric sleep, including state-of-the-art basic and clinical research in pediatric sleep and current clinical practices in pediatric sleep medicine.
